

BIOFOS

ECOLOGICAL ENZYMATIC TREATMENT FOR WASTE WATER TANKS

DESCRIPTION

BIOFOS is an ecological treatment based on bacteria and enzymes.

BIOFOS liquefies and degrades organic deposits and fatty substances in waste water tanks.

BIOFOS leaves a pleasant fresh odour.

BIOFOS allows the reduction of the maintenance and clearing-out of tanks.

BIOFOS limits the risks of obturation and corrosion.

BIOFOS penetrates, emulsifies and liquefies fatty substances.

BIOFOS is dispersable in water in any proportions.

BIOFOS does not contain pathogenic bacteria.

TECHNICAL DATA :

- Physical state : Liquid
- Colour : Blue.
- Odour : fruity perfume.
- pH : 7
- Relative density : 1
- Solubility : In water

INSTRUCTIONS OF USE :
