

# BIO-ZYM

## WATER PURIFIER FOR HOLDING TANKS ENZYMATIC DOSES

### DESCRIPTION

**BIO-ZYM** comes as a water-soluble bacteriological dosage which eliminates organic elements on a continuous basis.

**BIO-ZYM** provides a bacteriological balance in line with the effective functioning of water-evacuation systems.

**BIO-ZYM** works in three ways:

- Liquefies rapidly all organic waste products (greasy, derived from cellulose, starch, and other carbohydrates and protein materials)
- Prevents pipes being blocked
- Stops unpleasant odours caused by the fermentation of certain types of waste products

### TECHNICAL DATA :

Physical state : Compound

Aspect : Microgranulars.

Colour : yellow

Density : 710 g/l +/-20 g/l

### INSTRUCTIONS OF USE :

Dissolve the dose in a bucket of warm water.

Wait 10 to 15 minutes while the enzymes activate.

Pour into the zone to be treated.

FOR TOILETS :

Start by adding three doses for a tank between 100 and 150 litres.

Maintain on a regular basis by adding one dose per week.

FOR PIPES :

Add two doses every two weeks.

**Ref. 926M - 6 doses of 30 grs**  
**Ref. 926M.K - 50 doses of 30 grs**

Shelf Life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.  
Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.  
Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to [servicetechnique@matchchem.fr](mailto:servicetechnique@matchchem.fr).
