

DEO FUEL

FUEL ODOUR REMOVER

DESCRIPTION

DEO-FUEL allows hydrated micro-particles to be diffused, to settle and then neutralise volatile odours from petroleum based components or products such as hydrocarbon solvents, heating oil, diesel, petrol, etc.

DEO-FUEL reduces bad odours from hydrocarbons in compartments, or engine rooms or fuels resulting from accidental spillage, losses during tank filling, discharge during filter changes or engine breakdown, odours from oil recovery, etc.

DEO-FUEL has a final fragrant effect based on vegetable scents.

TECHNICAL DATA :

INSTRUCTIONS OF USE :

Ensure that there is no source of ignition - flame, electrical equipment or engines running, etc.
Spray briefly towards the source of the foul smelling emissions.
Leave to act for 5-10 minutes depending on the strength of the foul smells: repeat if required.

Ref. 989M - Aerosol 150 ml

Shelf Life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.
Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.
Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
