

ENZY TANK

ENZYMATIC CLEANER FOR BLACK WATER TANKS AND WASTE WATER TANKS

DESCRIPTION

ENZY TANK thanks to its bio-cleaning enzymatic functions, deteriorates, digests all organic waste products (greasy, derived from cellulose, starch, and other carbohydrates and protein materials).

ENZY TANK has the following characteristics :

- Provides a bacteriological balance in line with the effective functioning of water-evacuation systems.
- Bio cleaner miscible in water in all proportions
- Not caustic, practically neutral, does not modify the Ph

ENZY TANK has an immediate action.

ENZY TANK stops unpleasant odours caused by the fermentation of certain types of waste products.

ODOR DESTROYER - DEGRADING ENZYAMTIC COMPOSITION, STRONG ODORIFER.

TECHNICAL DATA :

Physical state : Liquid

Color : light amber

Chemical reaction : neutral

Pur pH : +/- 6.50

Density : 1000 g/l +/- 20 g/l

Odor : Fresh scent.

INSTRUCTIONS OF USE :

Shake the bottle well.

Always use diluted in clear water.

For a waste or black water tank of 100 litres:

Dilute 250ml in 5 litres of warm water (if it is possible).

Pour the mixture into sink drains, shower drains or toilet bowl.

Fill with water the tank.

Let act few hours to one night.

Drain away and rinse with clear water.

Ref. 130M - Bottle 1 litre
Ref. 130M.5 - Bottle 5 litres
Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.
Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.
Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
