

IMPERNET

FABRICS WATERPROOFER

DESCRIPTION

IMPERNET is an active product based on waterproofing properties specially designed to protect fabrics.

IMPERNET forms an invisible protector preventing impregnation by grease spots and penetration of rain through the treated fabric.

IMPERNET is especially recommended for waterproofing deck jackets, fleeces, etc.

IMPERNET does not stain, is non-greasy and leaves the fabric supple and breathable.

At the same time **IMPERNET** has a film forming effect, preventing dust build up on the textile fibres.

TECHNICAL DATA :

- Physical State : Clear liquid
- Density : 850 g/l +/- 20 g/l.
- Chemical reaction : Neutral
- Pur PH : 6
- Flash Point : 13 °C, AFNOR closed cup
- Odour : Solvent
- Colour : Colourless

INSTRUCTIONS OF USE :

Multi-position aerosol.

Shake the aerosol well before use.

Spray directly onto a clean, non-greasy, dust-free and perfectly dry surface, 20cm from the surface to be treated.

Spray two crossed layers and leave to dry.

Coverage for an aerosol of 400ml: +/- 4 m²

Ref. 546M - Aerosol 400 ml

Shelf Life : 18 months

Keep out of the reach of children. Reclose the packaging after each use.
Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.
Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
