

KILBACTE

PURIFIER TREATMENT FOR WATER TANKS

DESCRIPTION

KILBACTE is a powerful and efficient purifier developed to reduce significantly the proliferation of bacteria in water tanks.

KILBACTE prevents microbial fermentation.

KILBACTE is a germicide reinforced with a long-life bactericide.

KILBACTE is an "Alimentary" product, in other words it can come in contact with foodstuffs.

KILBACTE does not damage the skin, eyes and mucous membranes unlike other disinfectants.

KILBACTE does not require special safety labeling for dangerous substances.

TECHNICAL DATA :

Physical form: liquid

pH value (5% Soln) : 7 (± 1)

Density (g/ml): 0.98 (± 0.02)

Solubility : Soluble in water in all proportions

Color : Colourless

Odor : Odorless

INSTRUCTIONS OF USE :

Pour 25 ml of **KILBACTE** for a water tank of 100 litres.

Ref. 451MDO.05 - Bottle 500ml

Ref. 451MDO - Bottle 1 litre

Ref. 451MDO.5 - Bottle 5 litres

Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.

Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
