

POLI +

ULTRA FINE POLISH FOR GELCOAT AND PAINTED SURFACES

DESCRIPTION

Extremely well balanced composition of very fine abrasives with outstanding rubbing action.

POLI+ perfects burnishing on gelcoat.

POLI+ removes scratches, stains, medium oxidation and deposits without scratching.

POLI+ will give gelcoat and paint a high gloss finish.

POLI+ is a cream of complete polishing allowing to stop micropores of the gelcoat and to blur the microstripes.

TECHNICAL DATA :

Physical state : Cream

Density : 1.2 +/-0.03

Viscosity Brookfield : 2538 centipoises, mob 5, vitesse

50 tours/minute at 24°C

INSTRUCTIONS OF USE :

Apply **POLI+** using a nonfluffy dry rag or an orbital grinding machine provided with a soft felt.

Do not overdose the product, your polishing would be harder and longer.

- Work by small surfaces of 50 by 50 cm.

- Spread the cream.

- Wait a few minutes that the paste **POLI+** impregnates the gelcoat.

- Then carry out a uniform polishing by proceeding circular motions. If you use an orbital machine, work on a speed of 1000-1500 tours minutes

- Pass a clean rag or a soft and clean felt if you used a grinding machine on treated surface.

- Finish polishing by cleaning with a wet sponge to accentuate the brightness.

Ref. 655MK - Can 500ML

Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.

Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
