

SIMPLY GLASS

SIMPLY DOSE® range

EFFERVESCENT TABLET CLEANER FOR GLASS, VARNISHED & POLISHED SURFACES

DESCRIPTION

SIMPLY GLASS is a rapidly dissolving cleaning tablet that remains highly effective even in areas with hard water.

SIMPLY GLASS is rich in active ingredients. The formulation is based on a synergised combination of cleaning functions, anti-lime additives, and non-ionic surfactant agents.

SIMPLY GLASS has a strong cleaning power on glass, varnished, polished surfaces, and plexiglass.

SIMPLY GLASS degreases and dissolves embedded dirt, dust, greasy deposits, fingerprints, insect impacts, etc.

SIMPLY GLASS restores transparency to windows, windshields, protective glass, portholes, and mirrors.

SIMPLY GLASS dissolves quickly in water.

SIMPLY GLASS does not leave any traces or deposits.

SIMPLY GLASS does not contain silicone and is formulated without silicates or abrasives.

TECHNICAL DATA

- Physical state: 5-gramme compact tablet
- Colour: Blue
- Scent: Fresh
- Density of the tablet: 1752 g/l +/- 20 g/l.
- Flammability: Non-flammable.
- Active ingredient content: 100%
- In 1% solution, surface tension: 38.8 Dynes/cm
- Chemical reaction/ pH: Non-caustic - pH = 5

INSTRUCTIONS OF USE

Dilute two 5-gramme tablets in a 500 ml spray bottle.

Wait for complete dissolution (between 2 and 3 minutes) and close the bottle with the spray head.

Spray, rub and wipe.

The solution prepared in this way can be stored for 15 days.

IMPORTANT: Always securely close the lid immediately after removing tablets from the box. Keep dry.

Ref. 353M.20 - 20 tablets of 5 grs
GENCOD : 3760164175408

UFI : FPR3-5068-2005-4CFU
Shelf life : 3 YEARS

Keep out of the reach of children. Always reseal the packaging after taking a tablet.

Always carry out a test on the surface to be treated beforehand to determine compatibility and the appropriate contact time. Please refer to the available safety data sheet (SDS) and to the texts on the packaging, which comply with current legislation.

The content of this documentation does not in any way engage our responsibility as to its application to each particular case. This data sheet may be revised at any time for reasons relating to legislation, the availability of components or new experience. The latest version of this data sheet, which is the only valid one, will be sent to you on request.
