

SORB OIL

OIL AND FUEL ABSORBENT SHEETS

DESCRIPTION

SORB OIL has been designed to absorb up to 1.5 litres of oil or fuel oil in ships' holds and engine rooms.

SORB OIL is hydrophobic, i.e. it does not absorb water.

SORB OIL is ecofriendly.

SORB OIL is a double-thickness pre-cut absorbent sheet.

Made of pure polypropylene, **SORB OIL** offers an excellent absorption.

Once all the oil or fuel oil has been absorbed, **SORB OIL** must be put back in a plastic bag and disposed of in an appropriate container such as a device for recovering oil.

TECHNICAL DATA

- Chemical: polypropylene (PP)
- Dimensions : 40 x 50 cm
- Color : white

Standard : NF T90-360

(Determination of the absorbing power of hydrophobic floating absorbent materials - Water and hydrocarbon retention capacity)
= +/- 130

Réf. 141M.5 - Box of 200 sheets

Shelf life : 5 years

Keep out of the reach of children

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time.

Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.

This document does not imply our responsibility as to specific applications. This data sheet can already, at this precise moment, be revised for reasons due to the legislation, the availability of components or experiences recently acquired.
