

# SPID GRIP

## RESECURABLE CLICK-FASTENING ACTION

### DESCRIPTION

**SPID GRIP** works on the principle of interlocking mushroom heads, which provide a solid connection when pressed firmly together.

**SPID GRIP** can be fastened as often as required either lengthwise or crosswise and re-opened any time.

Attachment is obtained by pressing the hook structures fully together. Suitable for both light and heavy loads.

**SPID GRIP** loads up to five times greater than with traditional «hook and loop» connection.

### INSTRUCTIONS OF USE :

Work at a temperature between +15°C and +30°C.

Surface must be clean and free from dust and grease.

Pressure sensitive adhesive must be applied with a maximum of pressure in order to achieve maximum pressure level.

The indicated level of performance will be reached after a bonding period of 24HRS at +23°C.

**Ref. 339M**  
**Roll 1 M**

Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.

Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to [servicetechnique@mattchem.fr](mailto:servicetechnique@mattchem.fr).
