

SPIROUIL

RUST STAINS REMOVER FOR SAILCLOTH

DESCRIPTION

SPIROUIL is semi-gel specially developed for removing rust stains from sailcloth.

SPIROUIL does not contain any agent which might damage the fabric (Kevlar, Mylar, Dacron...) or the stitching.

SPIROUIL is a semi-gel product which does not migrate into the fibres and stays on the surface which is being treated.

It is used as a complement to the SLICKY whitening powder or the NETT VOILE concentrated cleaner.

With coloured sailcloth one should first check to make sure that the material is 'colour fast'.

TECHNICAL DATA :

Physical state : semi-gel
Density : 1287 g/l +/-20 g/l.
Chemical reaction : acid.
Pure pH : <1.
PH at 5% : 1.70

Odour : characteristic acid.
Color : colorless, without addition of colouring agent.
Superficial tension at 5 %: 41.7 dynes / cm
Viscosity : 780 cps mobile = 4 speed = 100 tr / mn 1
at 18°C

INSTRUCTIONS OF USE :

Apply with a paint brush or a soft rag **SPIROUIL** undiluted on the rust stain.

Let act 10 to 30 minutes.

Take care to do not let the sailcloth expose to the sun.

Rinse abundantly.

Ref. 650M
Bottle 125ml

Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.
Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.
Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
