

S.T.20

INSTANT RENOVATION CREAM FOR COPPER, BRASS AND BRONZE

DESCRIPTION

S.T.20 removes quickly vegetable pollutions such as seaweeds, moss, mildews on the hypalon, the neoprene and the P.V.C. **S.T.20** removes green and black spots.

S.T.20 allows to devitalize plant cells and destroy microorganisms responsible for the degradation of the hypalon, neoprene and P.V.C.

S.T.20 contains whitening agents which allow to bring back to inflatable boat their original color.

S.T.20 is manufactured from ingredients chosen for their biodegradability and their compatibility with the environment.

TECHNICAL DATA :

- Physical state : Jelly
- Density : 1045 g/l +/- 20 g/l.
- Chemical reaction : Alkaline
- pH : 13.3
- Odor : Lime green
- Colour : Colourless

INSTRUCTIONS OF USE :

Ready to use.

Apply with a paint brush.

Let act 15 minutes (Do not work into direct sunlight).

Rub with a soft brush.

Rinse abundantly with clear water.

** Do not use on light alloys, galvanized or sensitive to alkaline products.

Ref. 204M.1 - Bottle 1L

Ref. 204M - Bottle 2L

Shelf Life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.

Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
