

TOP PLEXI

POLISH FOR PLEXIGLAS

DESCRIPTION

TOP PLEXI is a cream allowing to renovate plexiglas surfaces.

TOP PLEXI provides an action of fine polishing which removes stains, including oily stains without leaving any scratches.

TOP PLEXI shades off micro-scratches.

TOP PLEXI restores shine and clear plexiglas.

TECHNICAL DATA :

Physical state : cream

Density : 1.2 +/-0.03

Viscosity Brookfield : 2538 centipoises, mob 5, vitesse

50 tours/minute at 24°C

INSTRUCTIONS OF USE :

First, clean the surface to be treated. Apply using a nonfluffy dry rag.

Spread the cream.

Wait a few minutes that the paste impregnates the stains.

Carry out a uniform polishing by proceeding circular motions.

Finish polishing by cleaning with a wet rag to accentuate the brightness.

Optimum performances will be obtained with the use of an orbital machine.

If you use an orbital machine, work on a speed of 1000-1500 tours minutes

Nota : Do not apply on hot surfaces and onto direct sunlight.

Coverage for 500ML : +/- 12m²

Ref. 341M
Aerosol 500 ml

Shelf life : 3 years

Keep out of the reach of children. Reclose the packaging after each use.

Exposure to sun and extreme temperatures should be avoided. Keep out of direct sunlight.

Always carry out a test prior to use on the surface to be treated to determine suitability and the appropriate contact time. Before use, read the label safety section for Health and Safety Information or request the safety data sheet to servicetechnique@mattchem.fr.
